Forecast for Wednesday 15 Nov 2023

Weather: A few spots of rain and drizzle through the early hours but also some clearer spells likely, especially in the east. Cloud thickens towards the end of the night with light rain and drizzle developing a little more widely before dying out through the late afternoon and evening, best of the brighter or clearer spells expected across eastern hills.

Chance of cloud-free hill tops above 600m: Around 40% in west, but nearer 75% in the east

Low cloud and visibility: Occasional or periods of cloud, but more persistent for a time through the late morning and early afternoon in the west, above 600m. Away from cloud visibility several kilometres in rain and drizzle, otherwise mainly good.
